U.S. Passport Photograph Requirements & List of Photographers

The U.S. Department of State specifies that all photographs meet the following specifications:

- ✓ 5cm x 5cm (2inch x 2inch) in size on a white or off-white background, without shadow of the head;
- ✓ A full front view of the applicant's face, with the head size (from bottom of chin to top of head, including hair) between 2½cm and 3cm, with 1cm space above the head and below the chin;
- ✓ In normal street attire. If applicant is required to wear any headcovering, a signed statement must be submitted indicating that the headcovering is worn daily for religious/medical reasons;
- ✓ Without glasses, unless a doctor's statement is submitted supporting the wearing of glasses for medical reasons.

Snapshots, most vending machine prints, magazine or full-length photographs are not acceptable. Photographs retouched so that the applicant's appearance is changed, or printed by color photocopy machines are also not acceptable.

Digitized photographs must be clear and provide proper contrast and white background. Some printers will produce a photograph in which the dots are seen. Visible dots distort the image by making it look grainy. Acceptable photos have a continuous tone image that looks very photo-like.

PHOTOGRAPHERS

The photographers on the following page have contacted the Consulate General and requested to be listed as photographers who are able to provide U.S. passport photographs. The U.S. Consulate General does not recommend any of the photographers listed over any other, and assumes no responsibility for the standard and quality of the photographs taken by them.

Please note that the list is not exhaustive, and applicants have the option of utilizing any photographer who can provide passport photos which meet U.S. passport photograph specifications. Furthermore, applicants are required to ensure that the photographs they submit comply with the U.S. passport photograph specifications or may risk the being asked to resubmit appropriate photographs.
